Vietnam Veterans represented 9.7% of their generation.

They have a lower unemployment rate than the same non-vet age groups.

Their personal income exceeds that of our non-veteran age group by more than 18 percent.

87% of Americans hold Vietnam Veterans in high esteem.

There is no difference in drug usage between Vietnam Veterans and non-Vietnam Veterans of the same age group (Source: Veterans Administration Study).

Vietnam Veterans are less likely to be in prison – only one-half of one percent of Vietnam Veterans have been jailed for crimes.

85% of Vietnam Veterans made successful transitions to civilian life.

97% of Vietnam Veterans were honorably discharged.

91% of Vietnam Veterans say they are glad they served.

74% say they would serve again, even knowing the outcome.

Friends it is with a great deal of angst that we announce that the replica of the Tomb of the Unknown Soldier will not be part of our patriotic display. Due to unfortunate circumstances the organization that built and transports the Tomb will not be able to be here next week. The key man in their crew has some health problems. We hope everyone understands this and we wish him Godspeed.

The
Bulletin Board

This will be the 5th time that we have brought the Traveling Vietnam Wall to Putnam County.

Each time we have read the names continuously the entire time the Wall is in place.

It looks like this time we may not be able to continue that tradition.

Sad. Think about reading some names.
