

New York State Deferred Compensation Plan

Putnam County is a participating employer in the NYS Deferred Compensation Plan.

The plan is a **voluntary** retirement savings plan offered by New York State to allow public employees to put aside money from each paycheck – either before or after taxes, or both – toward retirement.

Money that you have in your Plan account can be used to:

- Supplement your pension
- Cover emergency costs in retirement
- Be a bridge to get you to your Social Security-eligible age
- Fund your entire retirement
