What's new in 2026?

- **New look for PART transit vehicles.** Beginning in 2025, Putnam Area Rapid Transit has slowly started to replace its "blue-purple" vehicles with white vehicles and a single blue stripe along the center. While there are still some blue-purple vehicles still in service, the majority of the transit fleet consists of the newer white vehicles.
- **Expansion of Putnam on Demand Zone.** With the success of the Putnam on Demand Microtransit zone in Patterson, several areas along the edges of the service boundary have recently been added. These include: Woodland Trail, Sparrow Ridge, Fairways Crescent and Fieldstone Pond.
- **Putnam County Transit Study.** In July of this year, the County released a comprehensive system-wide study of its entire transit system. The study analyzes the current system in depth and makes recommendations for the County's core fixed-route services, demand-response services, paratransit services and addresses service gaps in Western Putnam County and also looks at rider infrastructure and amenities. The study is available on the Putnam County Planning Department's website.

¿Qué novedades hay en 2026?

- **Nueva imagen para los autobuses de PART.** A partir de 2025, PART ha comenzado a reemplazar su flota de transporte de color azul violáceo por nuevos vehículos blancos con una única franja azul. While there are still some blue vehicles in service, the majority of the transit fleet consists of the new white vehicles.
- **Expansión de la zona Putnam on Demand.** Tras el éxito de la zona de microtránsito bajo demanda en Patterson, se han incorporado varias áreas situadas en los límites de la zona de servicio, incluidas Woodland Trail, Sparrow Ridge, Fairways Crescent y Fieldstone Pond.
- **Estudio del sistema de transporte público del condado de Putnam.** En julio de este año, el condado publicó un estudio exhaustivo de todo su sistema de transporte. El estudio analiza en profundidad el sistema actual y formula recomendaciones para los servicios principales de ruta fija, los servicios de respuesta a la demanda y los servicios de paratransito del condado, además de abordar las deficiencias en la prestación de servicios en el oeste del condado de Putnam y también examina la infraestructura y las comodidades para los usuarios. El estudio está disponible en el sitio web del Departamento de Planificación del Condado de Putnam.
